

2018 ONTARIO HIGH SCHOOLS FALL 7'S TOURNAMENTS DIRECTORY

7's rugby is fast-paced and exciting for players and spectators. Players require above average speed and agility and strong ball-handling and decision-making skills.

Rugby Ontario and Rugby Canada are focused on developing 7's players for all future international competitions including IRB 7's tournaments for men and women, including junior age players.

Rugby Ontario understands the importance of HS rugby to the future of the sport.

Coaches are encouraged to organize regional fall 7's tournaments and provide tournament information to be posted on this web site to assist schools searching for competition.

Rugby Ontario will also continue to provide technical support for HS rugby with certification courses for coaches and referees and by organizing coaching symposiums.

Not listed below are the many tournaments organized for TSSAA schools because these are not open tournaments. Rugby Ontario recognizes the outstanding leadership of Toronto HS coaches in growing 7's rugby into by far the strongest initiative in Ontario.
